Community Meetings: Public Works Facility

The Public Works facility has been a subject of concern since 2000. The primary concern is that it poses a risk to life safety in the event of an earthquake. Besides the lack of seismic stability, the current building has no fire suppression system, is not ADA accessible and has deficiencies related to rest room, locker room, work-space, and storage capacities.

Since February 2017, the City Council has diligently been reviewing and assessing alternatives for solving the structural defects of the Public Works facility. In July 2017, the City Council directed staff to present an option to proceed with a new Public Works facility. In October 2017, the City Council held two public forums to discuss the need for a new Public Works facility and then awarded a design contract.

The proposed Public Works facility design is now available. The City Council set the maximum price not to exceed \$3 million. Throughout this process, the Council has been considering the following two financing options: General Obligation Bond (estimated monthly cost on a \$300,000 AV home of \$6.50) or placing a fee on the utility bills (estimated monthly cost per customer of \$4.78).

The City Council, throughout many public meetings, has determined it is in the best interest of the community and for life safety, to construct a new Public Works facility to meet the current and future needs of the City.

The City Council looks forward to sharing the information about their journey through the decision making process and hearing from you - the citizen. There will be two community meetings to review the proposed project and discuss financing methods.

August 30

City Hall, Council Chambers | 1300 NE Village St. | 6:30 PM

September 13

Community Center, 300 Harrison St. | 6:30 PM

Meetings

Aug 1	City Council

All meetings are subject to cancellation.

YOUTH BIKE HELMET PROGRAM

Summer is here and kids love to be outside riding their bikes. Safety is important while on two wheels or even three. The City of Fairview is offering a **free** program to ensure your child's bike helmet is properly adjusted. Call 503-665-7929 and ask for Anastasia or Rita to set up an appointment.

If your child doesn't have a helmet, or the one they have no longer fits, we also have a limited number of free bike helmets for kids and young adults. Stay safe!

Urban Renewal Open House

The City will be holding an Open House on **August 20, 2018, 7:15pm**, at **City Hall** to discuss a proposed Urban Renewal Area.

The Urban Renewal Area is being considered in Fairview for two key purposes. First: to incentivize development of vacant properties. Second: to improve the design, safety, and functionality of Halsey, 223rd, and Sandy Blvd.

Urban Renewal provides necessary funds for the City to pursue improvement projects and partnerships that meet community goals. In addition, Urban Renewal importantly creates incentives for developers to invest in the community.

The Open House will provide an opportunity to learn more about the details of urban renewal as a community development tool and the specific projects being considered by the advisory committee for the Urban Renewal Area. For more information on the Urban Renewal Area, please contact: Seth Thompson, City of Fairview, 503-674-6232 or thompsons@ci.fairview.or.us.

A Note From The Chief...

I would like to remind the residents of Fairview of several crime prevention resources that are available and free of charge. First, we have a newly launched security camera registration program where you can inform law enforcement of presence of your security cameras that might be useful in solving crimes in your area. The registration link is located at https://www.mcso.us/site/camera_registration.php.

Speaking of cameras, if you are engaging in on-line sales or purchases and need a safe location to conduct your transaction, there is a safe exchange location that is under 24/7 video surveillance located in front of Fairview City Hall on NE Village St. The location is marked with a sign.

If you are going on vacation and would like MCSO to check on your home while you are away, you can request vacation home checks by using the application form located at <https://www.mcso.us/site/faq.php>.

Finally, I want to urge everyone to continue to look out for one another in the community. Take some time to get to know your neighbors. And remember, if you see anything suspicious, please don't hesitate to call us using 911 if it is an emergency or 503-823-3333 for non-emergency police matters. If you see something, say something! I hope to see you all at National Night Out on August 7th! Stay safe out there.
